

Tamás Martinek (PhD) has been a staff member of the University of Szeged since 2000. In recognition of his scientific achievements in the Institute of Pharmaceutical Chemistry, he was successively promoted to Lecturer (2004) then Associate Professor (2008) before being appointed to his current position as Full Professor at the Institute of Pharmaceutical Analysis in 2014. He is presently the recipient of a prestigious MTA Lendület programme award. His research interests include foldamers, computer aided drug design, NMR spectroscopy of protein-ligand interactions, and investigation of structural properties of bioactive and biomolecules..
